**Potential Health Effects**

Inhalation: May cause irritation of upper respiratory passages and mucous membranes.  
Skin: May cause skin irritation. May cause a more serious response if confined to the skin or if the skin is abraded. A single prolonged exposure is unlikely to result in harmful quantities being absorbed.  
Eyes: Can cause irritation to eye and surrounding tissue.  
Ingestion: Swallowing large quantities causes headaches, nausea, vomiting, stomach cramps, and diarrhea.

**4. FIRST AID MEASURES**

If Inhaled: If inhaled, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.  
Skin Contact: Take off contaminated clothing and shoes immediately. Flush skin with plenty of water for at least fifteen minutes.  
Eye Contact: Flush eyes with plenty of water for at least 15 minutes and consult a physician. Remove contact lenses if able to do so.  
If Ingested: Do NOT induce vomiting unless instructed to do so by a physician. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

**5. FIREFIGHTING MEASURES**

Flammability Overview: Dried residue can thermally decompose, giving off irritating and potentially toxic fumes.  
Flash Point: Not Established  
Extinguishing Media: Use water-spray, alcohol-resistant foam, dry chemical, or carbon dioxide. Tailor extinguishing media to surrounding fire.  
Special Protective Equipment for Firefighters: Wear a self-contained breathing apparatus (SCBA) for firefighting if necessary.  
Hazardous Combustion Products: Carbon monoxide, carbon dioxide, ammonia, and oxides of nitrogen

**6. ACCIDENTAL RELEASE MEASURES**

Personal Precautions: Use personal protective equipment. Avoid breathing vapors, mist, or gas. Always ensure adequate ventilation. Evacuate personnel to safe areas.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Prevent from entering drains and waterways. Discharge into the environment must be avoided.

Containment and Clean Up: Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal. If assistance is needed call CHEMTEL or emergency services.

**7. HANDLING AND STORAGE**

Safe Handling: Use personal protective equipment. Avoid breathing vapors, mist, or gas. Always ensure adequate ventilation.

Safe Storage: Keep containers tightly closed in a dry well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store away from incompatible materials.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Exposure Limits**

Component	CAS Number	Exposure Limit	Basis
Diethylenetriamine penta (methylenephosphonic acid), sodium salt	22042-96-2	Not Established	ACGIH Threshold Value (TWA) (mg/m <sup>3</sup> )
		Not Established	OSHA PEL (TWA) (mg/m <sup>3</sup> )

**Personal Protective Equipment**

Eye Protection: Wear tightly fitting safety goggles or safety glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH. Have eye-wash stations available where eye contact can occur.

Hand Protection: Handle with chemical-resistant gloves. Gloves must be inspected prior to use. Dispose of contaminated gloves. Wash and dry hands after use.

Skin Protection: Protect skin by wearing pants, close toe shoes and long sleeves. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Safety showers should be located in the work area where skin contact can occur.

Respiratory Protection: Where risk assessment shows air-purifying respirators are appropriate, use a NIOSH-approved full-face respirator with appropriate cartridges. For oxygen deficient atmospheres, use a NIOSH approved air-supplied respirator. Respiratory protection may be needed for non-routine or emergency situations. Respiratory protection must be provided in accordance with OSHA 29 CFR 1910.134.

General Controls: Always ensure adequate ventilation and that working areas contain safety showers and eye wash stations. Handle material in accordance with good industrial hygiene and safety practices.
